

The Iby and Aladar Fleischman
Faculty of Engineering
Tel Aviv University

Department of Industrial Engineering

ORSIS - Operations
Research Society of
Israel

Operations Research Conference In Memory of **Professor Uriel G. Rothblum**

Monday, January 22, 2018

Rosenblatt Auditorium, Computer & Software Engineering Building,
Faculty of Engineering, Tel Aviv University, [map](#)

Program

9:00-9:30	Registration
9:30-10:15	Plenary talk – Danny Segev (Haifa University) <i>Provably near-optimal algorithms for assortment optimization</i>
10:15-10:35	Student talk – Nitsan Perah (Tel Aviv University) <i>Stable matchings for assigning students to dormitory-groups</i>
10:35-11:00	Coffee Break
11:00-11:20	Student talk – Royi Jacobovic (Hebrew University) <i>On the asymptotic efficiency of selection procedures for independent Gaussian populations</i>
11:20-11:40	Student talk – Noa Zychlinski (Technion) <i>Analysis of hospital networks via time-varying fluid models with blocking</i>
11:40-12:25	Plenary talk – Hillel Bar-Gera (Ben Gurion University) <i>Demand responsive transit and the importance of the easy questions</i>
12:25-13:30	Lunch break
13:30-13:45	Central assembly in memory of Professor Uriel Rothblum
13:45-14:30	Plenary talk – Michal Penn (Technion) <i>On routing and scheduling problems</i>
14:30-14:50	Student talk – Miri Gilenson (Ben Gurion University) <i>PTAS for the bi-scenario total completion time trade-off problem</i>
14:50-15:15	Coffee Break
15:15-16:00	Plenary talk – Amir Beck (Tel Aviv University) <i>The gradient method - past and present</i>

Organizers: Tal Raviv , Michal Tzur (Tel Aviv University)
