Shlomo Weiss is an associate professor in the School of Electrical Engineering, Tel Aviv University, Israel. Prior to joining Tel Aviv University in 1992, he was an assistant professor of computer science with the University of Maryland, Baltimore County, and the University of Maryland Institute for Advanced Computer Studies (UMIACS). His research interests are in the area of computer architecture and include microarchitecture, embedded systems, multicore, multithreading, and memory systems. He is a co-author of the book “POWER and PowerPC: Principles, Architecture, Implementation,” Morgan Kaufmann Publishers, 1994. Weiss has a BSc in electrical engineering from the Technion, Haifa Israel, and a PhD in computer science from the University of Wisconsin-Madison. He is a recipient of the IEEE third millennium medal, a senior member of the IEEE, and a member of the IEEE Computer Society.
